Applicant Information

Application No	85234909	Publication date	04/12/2011
Opposition Filing Date	08/10/2011	Opposition Period Ends	08/10/2011
Applicant	Inspirion Analytics 2021 Arch Street Philadelphia, PA 19103 UNITED STATES		

Goods/Services Affected by Opposition

Class 009. First Use: 2009/11/01 First Use In Commerce: 2009/11/01
All goods and services in the class are opposed, namely: Computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface

Grounds for Opposition

Priority and likelihood of confusion	Trademark Act section 2(d)
Dilution	Trademark Act section 43(c)

Marks Cited by Opposer as Basis for Opposition

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

ADOBE SYSTEMS INCORPORATED

Opposer,

v.

INSPIRION ANALYTICS

Applicant.

Opposition No.: _____

NOTICE OF OPPOSITION

Application Serial No.: 85/234,909

Mark: FLASH AND SUBSTANCE IN
HARMONY

International Class: 9

Filing Date: February 4, 2011

Publication date: April 12, 2011

Adobe Systems Incorporated ("Opposer"), a Delaware corporation, having its principal place of business at 345 Park Avenue, San Jose, California 95110, believes that it will be damaged by the issuance of a registration for the mark FLASH AND SUBSTANCE IN HARMONY ("Applicant's Mark") as applied for in Application Serial No. 85/234,909 filed on February 4, 2011 (the "Application"), by Inspirion Analytics ("Applicant"), and hereby opposes registration of the same in Class 9.

As grounds for opposition, Opposer alleges that:

I. THE PARTIES AND PLEADING HISTORY

1. Adobe Systems Incorporated is a Delaware corporation with its principal place of business at 345 Park Avenue, San Jose, California, 95110.
2. The Applicant is listed in the Application as Inspirion Analytics, a Pennsylvania limited liability company, with an address of 2021 Arch Street, Philadelphia, Pennsylvania, 19103.
3. Opposer timely files this opposition; Opposer extended the opposition deadline for the maximum 180 days. The effective deadline is August 10, 2011.

II. OPPOSER AND ITS MARKS

4. Opposer is one of the largest computer software companies in the world, with over 8,700 employees worldwide. Founded in 1982 in California, it had fiscal 2010 revenues of over \$3.8 billion. Its software is the undisputed leader in digital image creation and editing software, and is used by over ninety percent of creative professionals in the digital imaging field. Opposer is also a market leader in desktop publishing, website design, and web-based desktop publishing.

5. Opposer's FLASH products and services, launched in January and February of 1997, respectively, have become the leading animation, presentation, and rich content delivery mechanism on the Internet. Software using Opposer's FLASH mark is installed on nearly ninety-eight percent of internet-connected desktops and is widely used on mobile communications devices. See Exhibit A.

6. Opposer's FLASH Player is used to view content on the top twenty-five most popular video sites in the United States. See Exhibit A.

7. Opposer owns the FLASH mark ("Opposer's FLASH Mark"), along with a family of marks that contain the FLASH Mark as an element, and U.S. trademark registrations ("Opposer's Registrations") and applications ("Opposer's Applications") related to the same (all collectively, "Opposer's Marks"). Opposer's Registrations and Opposer's Applications are listed in Exhibit B.

8. TARR records and assignment records for Opposer's Registrations and Opposer's Applications are attached as Exhibit C.

9. Opposer uses Opposer's Marks for a wide range of goods and services, including without limitation, for those goods and services covered by Opposer's Registrations and Opposer's Applications (collectively, "Opposer's Goods and Services").

10. Opposer's Goods and Services, among others, include computer software for viewing and playing animation, video, sound, graphics, presentations, and illustrations in Class 9.

11. Opposer's Registrations for the mark FLASH ("Opposer's FLASH Registrations") are incontestable.

12. Through its efforts and the expenditure of considerable sums of money in connection with its advertising, promotional and market services, Opposer has developed valuable goodwill and consumer recognition in Opposer's Marks.

13. Opposer's FLASH Mark is famous and became famous for Opposer's Goods and Services for which it is registered prior to the filing date of the Application and on information an belief prior to the first use of Applicant's Mark, if any.

II. APPLICANT AND ITS MARK

14. Applicant seeks to register the term FLASH AND SUBSTANCE IN HARMONY as a trademark for the following goods ("Applicant's Goods") in:

International Class 9: Computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface

III. PRIORITY

15. There is no issue as to priority. All of Opposer's Marks were filed prior to the filing date of the Application and all but one of Opposer's Registrations were registered prior to the filing date of the Application.

IV. CLAIMS

A. Likelihood of Confusion

16. Applicant's Mark is highly similar to Opposer's Marks.
17. Applicant's Mark wholly encompasses Opposer's FLASH Mark.
18. On information and belief, Applicant's Goods are closely related to Opposer's Goods and Services.
19. On information and belief, Applicant's Goods are complementary to Opposer's Goods and Services.
20. On information and belief, Applicant's Goods are competitive with Opposer's Goods and Services.
21. On information and belief, Applicant's Goods are related to Opposer's Goods and Services.
22. On information and belief, Applicant's Goods include broadly defined computer software which could be used for viewing and playing animation, video, sound, graphics, presentations, and illustrations.
23. On information and belief, Applicant's Goods could be used by consumers using Opposer's FLASH software.
24. On information and belief Applicant's Goods could be used on the same devices as Opposer's FLASH software.
25. On information and belief, Applicant's Goods could be used in conjunction with Opposer's FLASH software.

26. On information and belief, Applicant's Goods could allow viewing of Opposer's FLASH software.

27. On information and belief, Applicant's customers may not be able to view certain content available through Applicant's Goods except if the customers are using Opposer's FLASH software.

28. Opposer's Goods and Services are provided to computer users.

29. On information and belief, Applicant's Goods, are or may be provided to computer users.

30. Opposer's Goods and Services are provided over the Internet.

31. On information and belief, Applicant's Goods, are or may be provided over the Internet.

32. Opposer's Goods and Services are advertised over the Internet.

33. On information and belief, Applicant's Goods are or may be advertised over the Internet.

34. Opposer's Goods and Services are used to view content on electronic devices.

35. On information and belief, Applicant's Goods are or may be used to view content on electronic devices.

36. On information and belief, consumers are likely to believe that Applicant's Goods require, depend upon, or are sponsored by or affiliated with Opposer and Opposer's Goods and Services.

37. Applicant's Mark so resembles each of Opposer's Marks as to be likely, when applied to Applicant's Goods, to cause confusion, to cause mistake, and to deceive the public with consequent injury to Opposer, the trade and the public.

38. Opposer further avers that it will be damaged if the Application is allowed to proceed to registration, because consumers and prospective consumers are likely to be confused, mistaken or deceived into believing that Applicant or Applicant's Goods are connected with, sponsored by,

or approved by Opposer. Any defect, objection or fault found with Applicant's Goods marketed or sold under Applicant's Mark will reflect upon and seriously injure the valuable reputation that Opposer has established for the Opposer's Goods and Services. Registration of Applicant's Mark would also damage Opposer because such registration would grant a statutory exclusive right to Applicant in violation and derogation of the prior and superior rights of Opposer, and would unduly narrow the scope of protection afforded to Opposer's Marks, all in contravention of 15 U.S.C. § 1052(d).

B. Likelihood of Dilution

39. Opposer reiterates the claims in paragraphs 1 – 38 of this Notice of Opposition.

40. Opposer's FLASH Mark is famous.

41. Opposer's FLASH Mark became famous prior to the filing date of the Application and on information and belief prior to Applicant's use, if any, of Applicant's Mark (including any first use date claimed in the Application).

42. Applicant's Mark wholly contains Opposer's FLASH Mark.

43. Applicant's Mark is highly similar to Opposer's FLASH Mark

44. Opposer's FLASH mark is distinctive.

45. Registration of Applicant's Mark would dilute or would be likely to dilute the distinctive quality of Opposer's FLASH Mark in contravention of 15 U.S.C. §1125(c).

46. Applicant's Mark so resembles Opposer's FLASH Mark as to be likely, when Applicant's Mark is applied to Applicant's Goods, to lessen the capacity of Opposer's FLASH Mark to identify and distinguish the goods and services offered under Opposer's FLASH Mark in contravention of 15 U.S.C. §1125(c).

WHEREFORE, Opposer respectfully prays that its opposition be sustained and that the application for registration of Serial No. 85/234,909 be denied and refused. This Notice of Opposition is filed according to the rules governing electronic submissions to the Trademark Trial and Appeal Board, including payment of the requisite \$300 fee (i.e., \$300.00 per class).

DATED: August 10, 2011.

CERTIFICATE OF SERVICE

I hereby certify that this NOTICE OF OPPOSITION is being deposited with the United States Postal Service with sufficient postage as first class mail on August 10, 2011 in an envelope addressed to the listed correspondent for the Application:

Market presence

More than half of Adobe's revenue is generated outside the United States.

Adobe® Reader® software is distributed in 34 languages on major platforms worldwide.

PDF, as well as subsets of the format such as PDF/Archive, PDF/X, and PDF/E, have been ratified by international standards bodies.

More than one billion Flash technology-enabled devices have shipped worldwide.¹

Adobe AIR® software has significantly expanded its penetration with over 300 million installs since its initial release.

Adobe Dreamweaver® software has a customer installed base of more than 5 million.

Adobe Flash Player is installed on over 98% of Internet-enabled desktops and approximately 75% of online videos worldwide are viewed using Adobe Flash technology, making Flash the #1 format for video on the web.²

More than 90% of creative professionals have Adobe Photoshop® software on their desktops.

Omniture, An Adobe company, is a leader in Software-as-a-Service, with one trillion user interactions measured per quarter.

Core technologies and clients

Portable Document Format (PDF)—

Launched in 1993

Developed by Adobe, and now an ISO standard (ISO 32000) used by government organizations, corporations, and people around the world for more secure, reliable electronic document exchange.

Adobe Reader—Launched in 1993

Free, universal client software that enables users inside and outside the firewall to interact with electronic documents online or offline.

Adobe Flash Player—Launched in 1996

The world's most ubiquitous client runtime for playing rich experiences across major operating systems, browsers, and mobile devices.

Adobe PostScript—Launched in 1984

Device-independent page description language, built into printers and professional presses, that powers the reliable output of visually rich documents.

Adobe AIR—Launched in 2008

Desktop runtime that delivers rich Internet applications (RIAs) built with web technologies outside of the browser and across all major operating systems.

Adobe® Digital Editions—

Launched in 2007

Software application for purchasing, managing and reading eBooks, digital newspapers, and other digital publications, transforming the digital reading experience and offering new creative possibilities for publishers.

Omniure® Online Marketing Suite—

Launched in 2009

On-demand software that enables marketers to optimize every customer interaction—creating more personalized, relevant experiences while also increasing conversion and maximizing return on their marketing spend.

Flagship Products

Creative solutions

Adobe Creative Suite® product line—

Launched in 2003

A family of tightly integrated, industry-leading design and development tools for virtually every creative workflow. Adobe Creative Suite is comprised of six editions: Adobe Creative Suite Design Premium and Design Standard editions; Adobe Creative Suite Web Premium and Web Standard editions; and Adobe Creative Suite Production Premium, as well as the all-inclusive Adobe Creative Suite Master Collection.

Adobe Photoshop—Launched in 1990

Professional industry standard for digital image editing and creation, and leader of the Photoshop digital imaging line.

Adobe InDesign®—Launched in 1999

Professional layout and design software that delivers swift production workflows, a fluid creative environment, and sophisticated graphics and typography.

Adobe Premiere® Pro—Launched in 1991

Powerful, frame-accurate, real-time digital video and audio editing software.

Adobe After Effects®—Launched in 1993

Essential motion graphics and visual effects tool for digital video production work.

Adobe Flash—Launched in 1996

The industry's most advanced authoring environment for creating interactive websites, engaging digital experiences, and high-impact mobile content.³

Adobe Dreamweaver—Launched in 1997

Industry-leading web development tool, enabling users to efficiently design, develop, and maintain standards-based websites and applications.⁴

Knowledge Worker Solutions

Adobe Acrobat®—Launched in 1993

Family of products that provide business, technical, and creative professionals a flexible, reliable, and more secure way to communicate and collaborate more easily with PDF.

Adobe Connect™—

Launched in 2003⁵

High-impact online conferencing and collaborative web communications solution that everyone can access instantly.

Enterprise and Developer Solutions

Adobe LiveCycle® Enterprise Suite—

Launched in 2004

A software suite that helps organizations improve productivity through intuitive applications and efficient process management.

Adobe Flex®—Launched in 2003

Familiar, standards-based programming framework and powerful set of building blocks for creating a richer, more responsive presentation tier for enterprise applications.

Mobile Solutions

Adobe® FlashCast®—Launched in 2004

End-to-end solution to meet the demand for compelling, consistently updated, easy-to-use mobile data services.

Select industry recognition

#42 best company to work for in America (*FORTUNE* magazine's "100 Best Companies to Work For," 2010).

#1 computer software company in America's Most Admired Companies 2010 (*Fortune*, 2010).

100 World's Most Ethical Companies (Ethisphere Institute, 2010)

#19 Great Places to Work India (Grow Talent Company Ltd./*Businessworld*, 2008).
